Section 6.2. Title of Utility Lines. The title conveyed to any Residential Site within the Sixteenth Subdivision shall not be held or construed to include the title to the water, gas, electricity, cable television, telephone, storm sewer or sanitary sewer lines, poles, pipes, conduits or other appurtenances or facilities constructed by the Declarant or Association, or public or private utility companies upon, under, along, across, or through such utility easements; and the right (but no obligation) to construct, maintain, repair and operate such systems, utilities, appurtenances and facilities is reserved to the Declarant or Association and their successors and assigns. The Owners of the respective Residential Sites shall not be deemed to separately own pipes, wires, conduits, or other service lines running through their property which are utilized for or serve other Residential Sites, but each Owner shall have an easement in and to the aforesaid facilities as shall be necessary for the use, maintenance and enjoyment of his Residential Site.

Section 6.3. Fence Easement. Owners of Residential Sites which abut the Golf Course Area shall be required to construct, at the time of construction of the Dwelling Unit on such Site, and thereafter to repair and maintain in good condition, a fence along such abutting property line. Such fence shall be of such type, style, size, design, materials and construction as required by the Architectural Committee. There is reserved to the Community Association a fence easement five (5) feet wide along the property line of all Residential Sites which abut the Golf Course for the purpose of constructing, repairing and maintaining a fence system along and over such easements, if the Community Association should so elect in the event any Owner of any such abutting Site should fail so to do. The Community Association shall further have a reasonable right of ingress and egress across each Residential Lot adjacent to the fence easement for the purposes of installing, maintaining, constructing and repairing any fence in the fence easement where the Owner of the particular Site fails to so do. The title to any Residential Site upon which there is a fence easement shall not be held or construed to include title to the fence or to any portion thereof. Neither the Declarant nor the Community Association or their successors or assigns shall be liable to the Owners for any damage done to any shrubbery, trees, flowers or other property of any such Owner situated on any portion of a Residential Site covered by the fence easement.

Section 6.4. No Improvements to be Constructed Over Easements. No Improvements shall be located over, under, upon or across any portion of any utility easement, except as otherwise provided herein. The Owner of each Residential Site shall have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of Improvements, to construct, keep and

maintain landscaping, paving and drives across any utility easements across the front of his Residential Site and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site. The Owner of each Residential Site shall also have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of improvements, to construct, keep and maintain landscaping, air conditioning units and equipment and similar equipment over, across or upon any utility easements along the side of a Residential Site (other than along any side of a Residential Site which is adjacent to a street right-of-way) and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site.

Section 6.5. No Liability to Owners. Neither the Declarant or Association, nor their successors or assigns, shall be liable to the Owners for any damage done by any utility company or any of their agents or employees to shrubbery, trees, flowers or other property of any Owner situated on a portion of a Residential Site covered by a utility easement.

##### ANNEXATION OF DEVELOPMENT LAND

Section 7.1. Further Development. Reference is hereby made to the fact that Declarant, and certain affiliates of Declarant or Declarant's general partners, currently own other tracts or parcels of land situated within the Project Area or may hereafter acquire other land within the vicinity of the Project Area (which land now owned by Declarant or hereafter acquired by Declarant is collectively herein referred to as the "Development Land"). It is currently contemplated by Declarant and the aforementioned affiliates that a portion of the Development Land will be developed in various stages or phases for residential purposes; however, the foregoing is only a current intention and is subject to change without notice. It is also the present intention of Declarant and such affiliates that if such development occurs, mutual easements (including utility easements), licenses and rights shall be granted for the benefit of the Association and Owners of Dwelling Units in the Project, and the present and future owners and tenants owning or leasing improvements in any developments now or hereafter constructed on the Development Land. In order to effectuate such intentions, certain easements are herein retained and granted, and provision is made for certain rights to be granted to the Association or the Owners to acquire easements and rights with respect to current and future development on the Development Land. From and after the

006-82-1175

date hereof until the Election Date, Declarant shall retain and have the power, without the consent of any other Owner or the Community Association, to annex portions of the Development Land into the Sixteenth Subdivision provided that the property so annexed is to be developed in a manner similar to the Sixteenth Subdivision in accordance with a general plan of development under which (i) the architectural standards prevailing within the Project Area will be continued in such annexed property, (ii) the type of Dwelling Units to be constructed in such annexed property will be similar or greater in value and cost to the Dwelling Unit in the Project Area, and (iii) the annexed property will become subject to assessment in the same manner as is prevailing for the Project Area. Declarant shall also be entitled to annex portions of the Development Land into the Sixteenth Subdivision after the Election Date, without the consent of any other Owner or the Community Association, provided that the first annexation proposed by Declarant subsequent to the Election Date is effected prior to the third annual anniversary of the Election Date, as extended by Excusable Delays, and any subsequent annexation proposed by Declarant is effected prior to the third annual anniversary of the Recordation of the most recently Recorded Supplemental Declaration annexing a portion of the Development Land into the Sixteenth Subdivision, as extended by Excusable Delays. If Declarant desires to annex portions of the Development Land into the Sixteenth Subdivision at any time after the third annual anniversary of the Election Date or the third annual anniversary of the Recordation of the most recently Recorded Supplemental Declaration annexing a portion of the Development Land into the Sixteenth Subdivision, Declarant shall be entitled to annex such Development Land into the Sixteenth Subdivision with the written approval (by written instrument or written ballot) of those Members holding not less than sixty-seven percent (67%) of the voting power within the Association (exclusive of the voting power of the Declarant). However, any annexation subsequent to an annexation approved by such Members shall not require the vote of the Members described in the preceding sentence if such annexation occurs prior to the third annual anniversary of the Recordation of the most recently Recorded Supplemental Declaration annexing a portion of the Development Land into the Sixteenth Subdivision, as extended by Excusable Delays. The additions authorized under this Section 7.1 shall be made by filing a Supplemental Declaration of record with respect to the property to be annexed into the Sixteenth Subdivision. Such Supplemental Declaration may contain such complimentary additions and modifications of the covenants and restrictions contained in this Supplemental Declaration as may be necessary to reflect the different character, if any, of the additional property and the improvements to be constructed thereon. In no event, however, shall such Supplemental Declaration revoke, modify or add to the covenants established by this Supplemental Declaration with respect to the property described on Exhibit "A" attached hereto.

006-82-1176

Section 7.2. Easements and Rights Presently Reserved.

Declarant hereby reserves unto itself, its successors and assigns, a nonexclusive easement and right-of-way for ingress, egress and parking over, across and through all streets and roadways (private or otherwise) shown on the Plat, said easement and right-of-way to expire on the Election Date, if Declarant has not, prior to such date, annexed portions of the Development Land into the Sixteenth Subdivision.

Section 7.3. Obligation to Grant Reciprocal Rights.

Declarant may, from time to time, assign one or more of the easements set out in this Article VII to such persons or entities as it desires, including but not limited to an owner's associations, but in no event to any person or entity that does not have an interest in a tract or parcel of land situated within the Development Land, it being intended that the right to use such easements be limited to parties residing on or using the Development Land or the Project, and their guests and invitees. No assignment of any such easement or easements shall be made unless concurrently therewith the parties, or representatives thereof, who are being granted such rights also grant to the Owners in the Sixteenth Subdivision or the Association a reciprocal easement or easements with respect to any similar facilities, if any, owned by such parties and located on the Development Land, or any part thereof. Subject to all of the provisions of this Article VII, Declarant and its successors and assigns may make multiple nonexclusive assignments of the easements herein granted to it.

Section 7.4. Allocation of Expenses.

If any of the easements and rights granted by this Article VII are assigned to other entities or persons in connection with developments on the Development Land as set out in Section 7.1 above, all such assignments shall provide that the assignees thereunder shall bear their proportionate share of the costs of maintaining, using and operating the street, road, recreational facility or other facility, as the case may be, as to which such right is granted. Such sharing of costs and expenses shall be based upon the actual costs of ownership, operation and maintenance of the facility in question, and shall be borne pro rata by all persons having the right to make use thereof based upon the number of Residential Sites or other residential units owned or leased by such assignee and the number of Residential Sites having said rights. The time of payment of such costs, and the methodology of ascertaining same, shall be specified in the instrument from Declarant or its successors and assigns to its assignee and shall be binding upon the Owners and the Community Association and such assignees provided that the cost allocation shall be based upon the basis as hereinabove provided or some other equitable basis.

006-82-1177

Section 7.5. Authority of Board. The Board shall have, and is hereby granted, the necessary and requisite authority to enter into such cross-easement and cross-use agreements, or other agreements howsoever designated, as may be necessary to effectuate the intents and purposes of this Article VII.

Section 7.6. Development Land. This Supplemental Declaration, including without limitation this Article VII, shall have no force or effect and shall not constitute any encumbrance with respect to the Development Land or any part thereof. Reference is made herein in this Article VII to the Development Land solely for purposes of describing certain reciprocal easements and other rights that may hereafter arise as between the Project Area and the Development Land and limiting the parties to whom the easements hereby reserved with regard to the Project may be assigned. No easements or rights are hereby granted or reserved as to the Development Land, and no easement or other right referred to in this Article VII with respect to the Development Land or any part thereof shall be of any force or effect unless set forth in a document executed by the owner or owners of the part of the Development Land to be subject to such right or easement, which document, or a memorandum thereof, is hereafter recorded in the office of the Clerk and Recorder of Galveston County, Texas.

##### GAS SERVICE

Section 8.1. Gas Service. Entex, Inc. has agreed to provide natural gas service to all Residential Sites, provided certain minimum usage is made of such service. Pursuant to the contract providing such service, all Dwelling Units shall have a minimum of gas water heating, and gas central comfort heating, or pay a non-utilization fee. If, however, any Dwelling Units completed in the Sixteenth Subdivision do not utilize both gas water heating and gas central comfort heating appliances, then the Owner of such Dwelling Unit at the time of constructing such Improvements shall pay to Entex, Inc. the non-utilization of gas facilities charge set by Entex, Inc. for such Dwelling Unit. This non-utilization charge shall be due thirty (30) days from completion of such Dwelling Unit. In the event this non-utilizing charge is not timely paid by the Owner of the non-utilizing Dwelling Unit, after demand is made for such payment, the Declarant or the Association may, at their option, pay such charge and the payment so made, if any, shall subject such Dwelling Unit to a Reimbursement Assessment.
