Section 5.2. Minimum Square Footage. The living area of the main residential structure, exclusive of porches (whether open or screened), and the garage, terraces and driveways, shall not be less than two thousand five hundred (2,500) square feet. Measurements shall be to the face of the outside walls of the main residential structure.

Section 5.3. Masonry and Roof Requirements. Except as may be otherwise approved in advance in writing by the Architectural Committee, the exterior finish of each Dwelling Unit shall be at least fifty-one percent (51%) brick, stone or other masonry, however, in computing such percentage, the garage shall be excluded. All Dwelling Units shall be roofed with tile roof, composition shingles or built-up roof, and no roof shall be composed of wooden shingles. The color and quality of such roof materials shall be subject to the approval of the Architectural Committee, and unless the color and quality of such roof materials comply with the terms of any Supplemental Declaration or any applicable Rules and Regulations.

Section 5.4. Building Set-Back Lines. No Improvements shall be located on any Residential Site nearer to the front property line than twenty-five (25) feet; provided however, for any Residential Site which fronts on a cul-de-sac as shown on the Plat, no Improvements shall be located on such Residential Site nearer to the front property line than greater of twenty (20) feet or distance specified by the applicable ordinance adopted by the City of League City, Texas, for cul-de-sacs. Subject to the provisions of Section 5.5 hereof, no Improvement shall be located nearer than ten (10) feet to the rear property line or to any street side property line or near therein five (5) feet to an interior side property line. For purposes of this Section 5.4 and other provisions of this Supplemental Declaration, the "front property line" is the common boundary of any Residential Site with a street, and in the case of a corner lot (with a common boundary on two streets or one street and a cul-de-sac) the boundary from which the Improvement set-back distance is larger. All Dwelling Units built in the Sixth Subdivision shall face the front line of the

Residential Site on which each such Dwelling Unit is built unless a deviation from this provision is provided by a specific provision of a Supplemental Declaration or unless the deviation is approved in advance in writing by the Architectural Committee. The term "Improvements" as used in this Article V shall not include concrete drives, walks, landscaping, air conditioning units, fences, eaves, ducts and unroofed terraces; provided, however, in no event shall any portion of the Improvements on a Residential Site encroach upon another Residential Site.

The Architectural Committee shall have the right to grant exceptions or variances to the building set-back lines shown on the Plat when doing so will not be inconsistent with the overall plans for development of the Sixth Subdivision and such exceptions or variances are permitted by law.

Section 5.5. Composite Building Site. In the event that the Architectural Committee approves, in writing, the consolidation of one (1) or more adjoining Residential Sites (or portions thereof) into one Residential Site, with the privilege of placing or constructing one (1) Dwelling Unit on such resulting Residential Site, then the side set-back lines for such Residential Site shall be measured from the resulting side property line of such Residential Site rather than from the set-back line indicated on the Plat or described in Section 5.4 above. The required building set-back line for the front property lines of such composite Residential Sites shall remain twenty-five (25) feet. Upon receipt of written approval of the Architectural Committee to consolidate one (1) or more Residential Sites into one (1) Residential Site, such composite Residential Site shall thereupon be regarded as one (1) Residential Site for all purposes under this Supplemental Declaration and the Community Declaration.

Section 5.6. Visual Obstruction at the Intersections of Streets. No object or thing which obstructs sight lines at elevations between two (2) feet and six (6) feet above the streets and private access rights-of-way in the Annexed Property, within the triangular area formed by the intersecting street property lines and the line connecting them at points twenty-five (25) feet from the intersection of the street lines (or extensions thereof) shall be placed, planted or permitted to remain on corner lots.

Section 5.7. Walls and Fences. No fence or wall may be built on any Residential Site except as may be expressly permitted from time to time by written approval of the Architectural Committee at its sole and absolute discretion. Provided, however, the Architectural Committee shall not permit nor approve (i) any fence or wall constructed of chain link or any other material which is not, in the sole opinion of the Architectural Committee, aesthetically compatible with structures, fences or walls located on or adjacent to or visible from the particular Residential Site;

nor (ii) any fence or wall to be located nearer to the front property line than the front building set back line which exceeds two (2) feet in height; nor (iii) any fence or wall which, in the sole opinion of the Architectural Committee, unreasonably obstructs the adjacent property owner's visibility of the golf course area; nor (iv) any fence or wall which, in the sole opinion of the Architectural Committee, is, by design or construction, aesthetically or architecturally incompatible with any fence, wall or structure located on adjoining lots or visible from the particular Residential Site, nor (v) any fence or wall along the rear property line of any Privately Owned Site identified on the Plat as abutting or facing Masters Drive or Pebble Beach Drive except for such fence as required in accordance with the guidelines established by the Architectural Committee. Provided, however, all lots shall be required to construct and maintain a fence complying with the building guidelines and approved by the Architectural Committee along and upon the property line of each such lot to the extent same abutts Masters Drive or Pebble Beach Drive. Authorization of the construction of any one or more fences or walls pursuant to this section shall not in any way obligate the Architectural Committee to authorize the construction of any other fence or wall. The Architectural Committee is hereby authorized to draft, publish and amend, from time to time, at its sole and absolute discretion, fence and wall requirements for Residential Sites located in the Sixth Subdivision which requirements shall be binding on Residential Sites within the Annexed Property. Such requirements shall in every way be consistent with the dual objectives of permitting high visibility of golf course to the extent reasonably feasible and other Common Areas from all Residential Sites and permitting only high quality architectural construction and design.

Section 5.8. Removal of Trash and Debris During Construction. During the construction, repair and/or restoration of Improvements, each Owner or party constructing Improvements for an Owner ("Builder") shall remove and haul from the Residential Sites all tree stumps, trees, limbs, branches, underbrush and all other trash or rubbish cleared from the Residential Site to permit construction of the Improvements, including landscaping. No burning of trash or other debris is permitted on any Residential Site, and no materials or trash hauled from any Residential Site may be placed elsewhere within the Project Area, unless approved in writing by the Architectural Committee. Other useable building materials are to be kept stacked and organized in a reasonable manner. No trash, materials or dirt shall be placed in any street. Any such trash, materials or dirt inadvertently spilling or getting into the street

or street gutter shall be removed, without delay, not less frequently than daily. Each Owner or Builder, either personally or through his appointed representative, shall be responsible for instructing the operator(s) of ready-mixed concrete trucks that "concrete wash-outs" shall occur on the Owner or Builder's Residential Site only; said concrete wash-outs to be removed from the South Shore Harbour premises, entirely, by the Owner or Builder.

Section 5.9. Access Easement for Owners. A nonexclusive easement is hereby granted to each Owner in and to Residential Sites for the purpose of reasonable and necessary access to such Owner's Residential Site for construction, maintenance and repair of Improvements thereon, provided that the Owner using an adjacent Residential Site for access purposes (the "Easement Site") shall keep such Easement Site free of any trash, rubbish and/or any other materials at all times during or after construction. Prior to any exercise of the access easement granted in this Section 5.9, the Owner or Builder of the Residential Site intending to exercise such easement upon, over or across the Easement Site shall give notice of such intent to the Owner (or Occupant) of the Easement Site. Unless otherwise authorized in writing by the Owner of the Easement Site, such access easement may be utilized only between the hours, local time, of 7:00 a.m. to 8:00 p.m., Monday through Friday, and 9:00 a.m. to 6:00 p.m., Saturday, and may be utilized only if the Owner (or Occupant) intending to use such access easement gives at least twenty-four (24) hours notice (oral or written) to the Owner (or Occupant) of the Easement Site (except in the case of an emergency or in the event that no Improvements have been constructed on the Easement Site, in which case no notice need be given). In all events, the use of the Easement Site shall be exercised in such manner as to avoid any unreasonable or unnecessary interference with the possession, use or enjoyment of the Easement Site by the Owner (or Occupant) of such Easement Site.

Section 5.10. Approval of Improvements. No Improvement of any kind whatsoever shall be permitted to be constructed, placed, repaired, restored or remodeled on any Residential Site without prior approval of the Architectural Control Committee.

#### ARTICLE VI

##### EASEMENTS AND UTILITIES

Section 6.1. Utility Easements on Plat. The utility easements shown on the Plat are dedicated with the reservation that such utility easements are for the use or benefit of any public or private utility operating within the Project Area in Galveston County, Texas, as well as for the benefit of the Association and the Owners to allow for the construction, repair, maintenance and operation of a system or systems of electric light and power,

telephone lines, cable television lines, gas, water, sanitary sewers, storm sewers and any other utility or service which the Declarant or Association may find necessary or proper.

**Section 6.2. Title of Utility Lines.** The title conveyed to any Residential Site within the Annexed Property shall not be held or construed to include the title to the water, gas, electricity, cable television, telephone, storm sewer or sanitary sewer lines, poles, pipes, conduits or other appurtenances or facilities constructed by the Declarant or Association, or public or private utility companies upon, under, along, across, or through such utility easements; and the right (but no obligation) to construct, maintain, repair and operate such systems, utilities, appurtenances and facilities is reserved to the Declarant or Association and their successors and assigns. The Owners of the respective Residential Sites shall not be deemed to separately own pipes, wires, conduits, or other service lines running through their property which are utilized for or serve other Residential Sites, but each Owner shall have an easement in and to the aforesaid facilities as shall be necessary for the use, maintenance and enjoyment of his Residential Site.

**Section 6.3. No Improvements to be Constructed Over Easements.** No Improvements shall be located over, under, upon or across any portion of any utility easement, except as otherwise provided herein. The Owner of each Residential Site shall have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of Improvements, to construct, keep and maintain landscaping, paving and drives across any utility easements across the front of his Residential Site and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site. The Owner of each Residential Site shall also have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of Improvements, to construct, keep and maintain landscaping, air conditioning units and equipment and similar equipment over, across or upon any utility easements along the side of a Residential Site (other than along any side of a Residential Site which is adjacent to a street or right-of-way) and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site.

**Section 6.4. No Liability to Owners.** Neither the Declarant or Association, nor their successors or assigns, shall be liable to the Owners for any damage done by any utility company or any of their agents or employees to shrubbery, trees, flowers or other property of any Owner situated on a portion of a Residential Site covered by a utility easement.

**Section 6.5. Fence Easement.** There is hereby dedicated and reserved to the Community Association a ten foot (10') wide fence easement located adjacent to and along and within the rear property line of the Residential Lots in the Annexed Property numbered 1 through 11 and Lot 27 of Block 1. No Improvement, excluding landscaping, shall be constructed or placed on any part of the Fence Easement, without the prior written approval of the Architectural Control Committee. The Community Association may elect to, but shall not be obligated to, construct, repair and maintain, or cause to be constructed, repaired and maintained, a fence system along and over such Fence Easement. The Community Association, if it so elects to build, shall, for itself and its agents and independent contractors further have a reasonable right of ingress and egress across each Residential Lot subject or adjacent to the Fence Easement for the purposes of installing, maintaining, constructing and repairing any fence in the Fence Easement. The title to any Residential Site upon which there is a Fence Easement shall not be held or construed to include title to any fence situated thereon at any time, or to any portion thereof. Neither the Declarant nor the Association or their successors or assigns shall be liable to the Owners for any damage done to any shrubbery, trees, flowers or other property of any such Owner situated on any portion of a Residential Site covered by the Fence Easement.

#### ARTICLE VII

#### ANNEXATION OF DEVELOPMENT LAND

**Section 7.1. Further Development.** Reference is hereby made to the fact that Declarant, and certain affiliates of Declarant or Declarant's general partners, currently own other tracts or parcels of land situated within the Project Area or may hereafter acquire other land within the vicinity of the Project Area (which land now owned by Declarant or hereafter acquired by Declarant is collectively herein referred to as the "Development Land"). It is currently contemplated by Declarant and the aforementioned affiliates that a portion of the Development Land will be developed in various stages or phases for residential purposes; however, the foregoing is only a current intention and is subject to change without notice. It is also the present intention of Declarant and such affiliates that if such development occurs, mutual easements (including utility easements), licenses and rights shall be granted for the benefit of the Association and Owners of Dwelling Units in the Project, and the present and future owners and tenants owning or leasing improvements in any developments now or hereafter constructed on the Development Land. In order to effectuate such intentions, certain easements are herein retained and granted, and provision is made for certain rights to be granted to the Association or the Owners to acquire easements and rights with respect to current and future development on the Development

Land. From and after the date hereof until the Election Date as defined in the Community Declaration, Declarant shall retain and have the power, without the consent of any other Owner or the Community Association, to annex additional portions of the Development Land into the Sixth Subdivision provided that the property so annexed is to be developed in a manner similar to the Sixth Subdivision in accordance with a general plan of development under which (i) the architectural standards prevailing within the Project Area will be continued in such annexed property, (ii) the type of Dwelling Units to be constructed in such annexed property will be similar or greater in value and cost to the Dwelling Unit in the Project Area, and (iii) the annexed property will become subject to assessment in the same manner as is prevailing for the Project Area. Declarant shall also be entitled to annex additional portions of the Development Land into the Sixth Subdivision after the Election Date, without the consent of any other Owner or the Community Association, provided that the first annexation proposed by Declarant subsequent to the Election Date is effected prior to the third annual anniversary of the Election Date, as extended by Excusable Delays, and any subsequent annexation proposed by Declarant is effected prior to the third annual anniversary of the Recordation of the most recently recorded Supplemental Declaration annexing a portion of the Development Land into the Sixth Subdivision, as extended by Excusable Delays. If Declarant desires to annex portions of the Development Land into the Sixth Subdivision at any time after the third annual anniversary of the Election Date or the third annual anniversary of the Recordation of the most recently Recorded Supplemental Declaration annexing a portion of the Development Land into the Sixth Subdivision, Declarant shall be entitled to annex such Development Land into the Eleventh Subdivision with the written approval (by written instrument or written ballot) of those Members holding not less than sixty-seven percent (67%) of the voting power within the Association (exclusive of the voting power of the Declarant). However, any annexation subsequent to an annexation approved by such Members shall not require the vote of the Members described in the preceding sentence if such annexation occurs prior to the third annual anniversary of the Recordation of the most recently Recorded Supplemental Declaration annexing a portion of the Development Land into the Sixth Subdivision, as extended by Excusable Delays. The additions authorized under this Section 7.1 shall be made by filing a Supplemental Declaration of record with respect to the property to be annexed into the Sixth Subdivision. Such Supplemental Declaration may contain such complimentary additions and modifications of the covenants and restrictions contained in this Supplemental Declaration as may be necessary to reflect the different character, if any, of the additional property and the improvements to be constructed thereon. In no event, however, shall such Supplemental Declaration revoke, modify or add to the covenants established by this Supplemental Declaration with respect to the property described on the Plat.

Section 7.2. Easements and Rights Presently Reserved.

Declarant hereby reserves unto itself, its successors and assigns, a nonexclusive easement and right-of-way for ingress, egress and parking over, across and through all streets, rights-of-way and roadways (private or otherwise) shown on the Plat, said easement and right-of-way to expire on the Election Date, if Declarant has not, prior to such date, annexed portions of the Development Land into the Sixth Subdivision.

Section 7.3. Obligation to Grant Reciprocal Rights.

Declarant may, from time to time, assign one or more of the easements set out in this Article VII to such persons or entities as its desires, including but not limited to an owner's associations, but in no event to any person or entity that does not have an interest in a tract or parcel of land situated within the Development Land, it being intended that the right to use such easements be limited to parties residing on or using the Development Land or the Project, and their guests and invitees. No assignment of any such easement or easements shall be made unless concurrently therewith the parties, or representatives thereof, who are being granted such rights also grant to the Owners in the Sixth Subdivision or the Association a reciprocal easement or easements with respect to any similar facilities, if any, owned by such parties and located on the Development Land, or any part thereof. Subject to all of the provisions of this Article VII, Declarant and its successors and assigns may make multiple nonexclusive assignments of the easements herein granted to it.

Section 7.4. Allocation of Expenses. If any of the easements and rights granted by this Article VII are assigned to other entities or persons in connection with developments on the Development Land as set out in Section 7.2 above, all such assignments shall provide that the assignees thereunder shall bear their proportionate share of the costs of maintaining, using and operating the street, road, recreational facility or other facility, as the case may be, as to which such right is granted. Such sharing of costs and expenses shall be based upon the actual costs of ownership, operation and maintenance of the facility in question, and shall be borne pro rata by all persons having the right to make use thereof based upon the number of Residential Sites or other residential units owned or leased by such assignee and the number of Residential Sites having said rights. The time of payment of such costs, and the methodology of ascertaining same, shall be specified in the instrument from Declarant or its successors and assigns to its assignee and shall be binding upon the Owners and the Community Association and such assignees provided that the cost allocation shall be based upon the basis as hereinabove provided or some other equitable basis.

Section 7.5. Authority of Board. The Board shall have, and is hereby granted, the necessary and requisite authority to

enter into such cross-easement and cross-use agreements, or other agreements howsoever designated, as may be necessary to effectuate the intents and purposes of this Article VII.

Section 7.6. Development Land. This Supplemental Declaration, including without limitation this Article VII, shall have no force or effect and shall not constitute any encumbrance with respect to the Development Land or any part thereof. Reference is made herein in this Article VII to the Development Land solely for purposes of describing certain reciprocal easements and other rights that may hereafter arise as between the Project Area and the Development Land and limiting the parties to whom the easements hereby reserved with regard to the Project may be assigned. No easements or rights are hereby granted or reserved as to the Development Land, and no easement or other right referred to in this Article VII with respect to the Development Land or any part thereof shall be of any force or effect unless set forth in a document executed by the owner or owners of the part of the Development Land to be subject to such right or easement, which document, or a memorandum thereof, is hereafter recorded in the office of the Clerk and Recorder of Galveston County, Texas.

#### ARTICLE VIII

##### GAS SERVICE

Section 8.1. Gas Service. Entex, Inc. has agreed to provide natural gas service to all Residential Sites, provided certain minimum usage is made of such service. Pursuant to the contract providing such service, all Dwelling Units shall have a minimum of gas water heating, and gas central comfort heating, or pay a non-utilization fee. If, however, any Dwelling Units completed in the Annexed Property do not utilize both gas water heating and gas central comfort heating appliances, then the Owner of such Dwelling Unit at the time of constructing such Improvements shall pay to Entex, Inc. the non-utilization of gas facilities charge set by Entex, Inc. for such Dwelling Unit. This non-utilization charge shall be due thirty (30) days from completion of such Dwelling Unit. In the event this non-utilizing charge is not timely paid by the Owner of the non-utilizing Dwelling Unit, after demand is made for such payment, the Declarant or the Association may, at their option, pay such charge and the payment so made, if any, shall subject such Dwelling Unit to a Reimbursement Assessment.
