Other Persons may be entitled, from time to time, to use such Community Association Properties on a temporary or permanent basis, in accordance with the Rules and Regulations and subject to the provisions of the Community Declaration.

ARTICLE IV USE RESTRICTIONS

All of the Annexed Property shall be held, used and enjoyed subject to the restrictions in the Community Declaration (including, without limitation, the provisions of Article X of the Community Declaration relating to architectural approval of Improvements), as well as the following limitations and restrictions, except for the exemptions of Declarant set forth in the Community Declaration. To the extent that any of the following restrictions are more restrictive than any similar restrictions in the Community Declaration, the restrictions in this Supplemental Declaration shall control.

Section 4.1. Residential Use. Each Residential Site in the Annexed Property shall be improved with a Dwelling Unit and used solely for one (1) Common Household Group for residential living purposes and such purposes as are customarily incident thereto, and shall not be used at any time for business, commercial, educational, church or professional activities; provided, however, an Owner of a Residential Site in the Annexed

Property may use his Dwelling Unit for professional or other home occupations such as the maintenance of a personal or professional library, the keeping of personal business or professional records or accounts, or for the handling of personal business or professional telephone calls or correspondence so long as there is no external evidence thereof (such as signs advertising a business or consultation in person with clients or customers at the Residential Site), and no unreasonable inconvenience to such Owner's neighbors is created.

Section 4.2. No Hanging Articles. No clothing or household fabrics or other articles shall be hung, dried or aired on any Residential Site in the Annexed Property in such a way as to be visible from other Residential Sites or from the Common Areas.

Section 4.3. No Further Subdivision. No Residential Site or Dwelling Unit thereon in the Annexed Property may be further subdivided nor may any easement or other interest therein less than the whole (including any timeshare estate) be conveyed by the Owner thereof (including the Community Association but excluding Declarant), without the prior written approval of the Architectural Committee. Nothing in this Section 4.3 shall be deemed to prevent an Owner from, or require the approval of the Architectural Committee for: (a) selling or leasing of an entire Residential Site, or (b) transferring or selling any Residential Site to more than one Person to be held by them as tenants in common, joint tenants or tenants by the entirety.

Section 4.4. View Restrictions. No vegetation, landscaping or other Improvements shall be planted, constructed or maintained by any Owner of any Residential Site upon such Owner's Residential Site in the Annexed Property in such location or of such heights as to unreasonably obstruct the view from any other Residential Site or the Community Association Area in the vicinity thereof, or to create a hazardous condition for the users of any sidewalks or streets. In the event of a dispute between Owners in the Annexed Property as to the obstruction of a view from a Residential Site, the Community Association Area or the creation of a hazardous condition, such dispute shall be submitted to the Board of the Community Association ("Board"), whose decision in such matters shall be final and binding and not subject to appeal of any kind. Such Board may request any Owner to remove from such Owner's Residential Site, or otherwise alter, any obstruction to the view from the Community Association Area or any hazardous condition. Any such obstruction or hazardous condition shall, upon request of the Board, be removed or otherwise altered to the satisfaction of the Board, by the Owner of the Residential Site upon which said obstruction is located at Owner's sole cost; provided, however, in the event the Owner fails to remove or otherwise alter such obstruction or hazardous condition, in which event the Community Association shall remove such obstruction or hazardous condition,

charging the entire cost thereof to the Owner. Each Owner shall be responsible for periodic trimming and pruning of all hedges, shrubs and trees located on the Residential Sites so as to not unreasonably obstruct the view of adjacent Owners or the users of any streets. Such costs shall be a Reimbursement Assessment and shall create a lien on the Residential Site enforceable in the manner set forth in the Community Declaration.

Section 4.5. Landscaping. Within ninety (90) days after Recordation of a deed of a Residential Site in the Annexed Property to an Owner, such Owner shall install and shall thereafter maintain the landscaping on his Site in a neat and attractive condition, including all necessary landscaping and gardening to properly maintain and periodically replace when necessary any trees, plants, grass and other vegetation which may be originally place on such Site by Declarant or required by the Architectural Committee or the Rules and Regulations. The Board may adopt Rules and Regulations proposed by the Architectural Committee to regulate landscaping permitted and required in the Residential Site in the Sixth Subdivision as provided in the Community Declaration and in the Bylaws. In the event that any Owner shall fail to install and maintain landscaping in conformance with the Rules and Regulations, or shall allow his landscaping to deteriorate to a dangerous, unsafe, unsightly or unattractive condition, the Board, upon thirty (30) days prior written notice to such Owner, shall have the rights as hereinafter described. Provided, however, in the event that any Owner shall fail to mow and keep trimmed and neat the lawn and grass areas on his Site or otherwise permit any of said law and grass area to deteriorate to an unsightly or unattractive condition, the Board upon ten (10) days prior written notice to such Owner, shall have the rights as hereinafter described. The Board shall have the right, upon the appropriate above-described written notice to an Owner, either (a) to seek any remedies at law or in equity which it may have to correct such conditions, or (b) after Notice and Hearing, to enter upon such Owner's Residential Site for the purpose of correcting such condition, and such Owner shall promptly reimburse the Community Association for the costs thereof, or (c) both of the foregoing, or (d) impose such fines and penalties as exist under the Rules and Regulations of the Community Association. Such cost shall be a Reimbursement Assessment and shall create a lien against such Residential Site enforceable in the manner set forth in the Community Declaration.

Section 4.6. Vehicle Restriction. No recreation vehicle, camper, camper not on a truck, boat or other watercraft, mobile home, horse trailer, or other trailer, tractor, motor home or truck (other than a pickup truck or van) shall be stored or shall be parked for longer than ten (10) hours anywhere within the Annexed Property (including driveways) or on any public or private road or street in such a manner as to be visible from any other Residential Site or from any portion of any Common Area. Any such

vehicle may be kept only within a garage, an enclosed or partially enclosed structure approved by the Architectural Committee or within a parking area designated by the Community Association for the storage and parking of such vehicles. No inoperable vehicle or vehicle kept stationary for a period in excess of forty-eight (48) hours shall be allowed to remain on any portion of the Annexed Property or on any private or public street or road in such a manner as to be visible from any Residential Site other than the Residential Site on which such vehicle is located or from any portion of the Common Area. No vehicle, including, but not limited to, motorcycles, motorbikes, bicycles, automobiles, trucks and trailers may be kept or used anywhere within the Annexed Property in violation of any applicable Rules and Regulations. Such Rules and Regulations, among other things, may prohibit the keeping or use of motorcycles, motorbikes, dune buggies, golf carts or other loud or offensive vehicles, or may limit their use, and may regulate places of parking of such vehicles. Any vehicle found to be in violation of any of the provisions of this Section 4.6 may be towed away by or on behalf of the Community Association at the expense of the owner of such vehicle.

Section 4.7. Animals. No animals of any kind shall be raised, bred or kept in the Annexed Property except as hereinafter provided. A reasonable number of dogs, cats or other household pets may be kept on a Residential Site, provided that (a) they are not kept, bred or maintained for commercial purposes, (b) they do not make objectionable noises, create any odor, or otherwise constitute a nuisance to other Owners of property in the Annexed Property, (c) they are kept within an enclosed yard on the Residential Site occupied by the Owner of such pets or on a leash being held by a Person capable of controlling the animal, and (d) they are not in violation of any other provision of the Community Declaration and such limitations as may be set forth in the Rules and Regulations. A "reasonable number" as used in this Section 4.7 shall ordinarily mean no more than two (2) pets per Residential Site; provided, however, that the Board (or the Architectural Committee or such other Person as the Board may from time to time designate) may from time to time determine that a reasonable number in any instance may be more or less than two (2). The Community Association, acting through the Board, shall have the right to prohibit the keeping of any animal which, in the sole opinion of the Board, is not being maintained in accordance with the foregoing restrictions. Each Owner and/or Related User maintaining any animal shall be liable in accordance with all local ordinances and the laws of the State of Texas to each and all remaining Owners and Related Users of such Owners for any damage to person or property caused by any such animal; and it shall be the absolute duty and responsibility of each such Owner or Related User to clean up after such animals to the extent they have used any portion of the

Residential Site of another Owner, or any street or other Common

Areas.

Section 4.8. Restriction on Exterior Lighting. Except as may be approved in advance in writing by the Architectural Committee, no exterior lighting shall be permitted anywhere within the Annexed Property, including lighting to accent landscaping features, lights at entrance doors to structures, lights at entrances to property, lights along paths or driveways and lights to illuminate permitted signs. Approval shall be given only if such lights shall be of attractive design and shall be as small in size as is reasonably practical and shall be placed or located as directed or approved in writing by the Architectural Committee, and shall not allow light reflection or glare to be discernible from any place off the Residential Site where such lighting exists.

Section 4.9. Casualty Insurance for Improvements. Each Owner of a Residential Site within the Annexed Property shall be obligated to obtain and keep in full force and effect at all times casualty insurance with respect to all insurable Improvements on the Site for the full replacement value thereof, including coverage for windstorm, fire and extended coverage, vandalism and malicious mischief and, if reasonably available and if deemed appropriate by the Community Association as evidenced by resolution of the Board, flood, earthquake or war risk coverage. In the event of damage or destruction to any insured Improvements, the proceeds of such insurance shall be applied by the Owner thereof, to the extent necessary, to cause the damaged or destroyed Improvement to be restored or replaced to its original condition or such other condition as may be approved in writing by the Architectural Committee or the Owner shall promptly cause the damaged or destroyed Improvement to be demolished and the Residential Site to be suitable landscaped, subject to the approval of the Architectural Committee, so as to present a pleasing and attractive appearance, and to be well maintained, mowed, and edged to conform to occupied Residential Sites in the immediate vicinity.

Section 4.10. Solar Energy Installations. The Architectural Committee shall approve the plans and specifications for the installation of residential solar systems, provided that the Architectural Committee determines that such plans and specifications demonstrate the exercise of reasonable measures to minimize the potential adverse aesthetic impact of the installation on other portions of the Sixth Subdivision or on any other Community Association Properties. Any such Architectural Committee approval shall have no effect upon the enforceability of any other use restriction in the Community Declaration or this Supplemental Declaration. The Committee shall promulgate reasonable standards and guidelines against which to examine any such plans and specifications, in accordance with Article X of the Community Declaration. Any such standards or guidelines restricting the installation or use of a solar energy system shall not

significantly increase the cost of the system nor significantly decrease its efficiency.

Section 4.11. Drilling or Mining. No mineral drilling, development, refining or mining operations of any kind shall be permitted within the Annexed Property, nor shall any wells, tanks, tunnels, mineral excavations or shafts be permitted within the Annexed Property. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted within the Annexed Property.

Section 4.12. Common Area/Community Association Areas. No Owner of a Residential Site shall be permitted to place or construct or maintain any Improvement or any portion of any Improvement on any portion of any Common Area or Community Association Area. No Improvement shall be placed or constructed on Restricted Reserve "A" of the Annexed Property other than such landscaping and fencing as approved by the Architectural Committee.

Section 4.13. Access. Vehicular and pedestrian access to, and driveways on each Residential Site shall be required to be via Colombia Circle. No vehicular or pedestrian access or driveways shall be permitted directly connecting any Residential Site with any portion of South Shore Boulevard or Masters Drive.

ARTICLE V CONSTRUCTION RELATED RESTRICTIONS

Section 5.1. Heights and Character of Dwelling Unit. No Dwelling Unit shall be erected, altered or permitted to remain on any Residential Site in the Annexed Property other than one Common Household Group Dwelling Unit, not in excess of two (2) stories in height or more than thirty (30) feet in height measured from the finished grade of the Residential Site, together with a private garage and within the exterior boundary of the Residential Site serving not more than four (4) automobiles.

Section 5.2. Minimum Square Footage. The living area of the main residential structure (Dwelling Unit) in the Annexed Property, exclusive of porches (whether open or screened), and the garage, terraces and driveways, shall not be less than two thousand two hundred (2,200) square feet. Measurements shall be to the face of the outside walls of the main residential structure.

Section 5.3. Masonry and Roof Requirements. Except as may be otherwise approved in advance in writing by the Architectural Committee, the exterior finish of each Dwelling Unit shall be at least fifty-one percent (51%) brick, stone or other masonry, however, in computing such percentage, the garage shall be excluded. All Dwelling Units within the Annexed Property shall be

roofed with composition shingle, and no roof shall be composed of wooden shingles. The color, quality and manufacturers specifications of such roof materials shall be subject to the approval of the Architectural Committee, and the color and quality of such roof materials shall also comply with the terms of this Supplemental Declaration or any applicable Rules and Regulations.

Section 5.4. Building Set-Back Lines. No Improvements shall be located on any Residential Site nearer to the front property line than twenty-five (25) feet. No Improvement shall be located nearer than ten (10) feet to the rear property line or to any street side property line or nearer than five (5) feet to an interior side property line. For purposes of this Section 5.4 and other provisions of this Supplemental Declaration, the "front property line" is the common boundary of any Residential Site with Columbia Circle as shown on the Plat. All Dwelling Units built in the Annexed Property shall face the front line of the Residential Site on which each such Dwelling Unit is built unless a deviation from this provision is approved in advance in writing by the Architectural Committee. The term "Improvements" solely as used in this Section 5.4 shall not include concrete drives, walks, landscaping, air conditioning units, fences, eaves, ducts and unroofed terraces; provided, however, in no event shall any portion of any Improvements to any Residential Site on a Residential Site encroach upon another Residential Site.

The Architectural Committee shall have the right to grant exceptions or variances to the building set-back lines shown on the Plat when doing so will not be inconsistent with the overall plans for development of the Sixth Subdivision and such exceptions or variances are permitted by law.

Section 5.5. Composite Building Site. In the event that the Architectural Committee approves, in writing, the consolidation of one (1) or more adjoining Residential Sites (or portions thereof) into one Residential Site, with the privilege of placing or constructing one (1) Dwelling Unit on such resulting Residential Site, then the side set-back lines for such Residential Site shall be measured from the resulting side property line of such Residential Site rather than from the set-back line indicated on the Plat or described in Section 5.4 above. The required building set-back line for the front property lines of such composite Residential Sites shall remain twenty-five (25) feet. Upon receipt of written approval of the Architectural Committee to consolidate one (1) or more Residential Sites into one (1) Residential Site, such composite Residential Site shall thereupon be regarded as one (1) Residential Site for all purposes under this Supplemental Declaration and the Community Declaration.

Section 5.6. Visual Obstruction at the Intersections of

Streets. No object or thing which obstructs sight lines at elevations between two (2) feet and six (6) feet above the streets in the Annexed Property within the triangular area formed by the intersecting street property lines and the line connecting them at points twenty-five (25) feet from the intersection of the street lines (or extensions thereof) shall be placed, planted or permitted to remain on corner lots.

Section 5.7. Walls and Fences. (A) No fence or wall may be built on any Residential Site except as may be expressly permitted from time to time by written approval of the Architectural Committee at its sole and absolute discretion. Provided, however, the Architectural Committee shall not permit nor approve (i) any fence or wall constructed of chain link or any other material which is not, in the sole opinion of the Architectural Committee, aesthetically compatible with structures, fences or walls located on or adjacent to or visible from the particular Residential Site; nor (ii) any fence or wall to be located nearer to the front property line than the front building set back line; nor (iii) any fence or wall which, in the sole opinion of the Architectural Committee, unreasonably obstructs the adjacent property owner's visibility of any golf course area; nor (iv) any fence or wall which, in the sole opinion of the Architectural Committee, is, by design or construction, aesthetically or architecturally incompatible with any fence, wall or structure located on adjoining lots or visible from the particular Residential Site. No Owner shall construct a fence so as to enclose any portion of any Common Area. Authorization of the construction of any one or more fences or walls pursuant to this section shall not in any way obligate the Architectural Committee to authorize the construction of any other fence or wall. The Architectural Committee is hereby authorized to draft, publish and amend, from time to time, at its sole and absolute discretion, fence and wall requirements for Residential Sites located in the Sixth Subdivision. Such requirements shall in every way be consistent with the dual objectives of permitting high visibility of golf course and other Common Areas from all Residential Sites and permitting only high quality architectural construction and design.

(B) Without limiting the generality of the foregoing, fencing shall be constructed and maintained on Lots within the Annexed Property by the Owners of such Lots as follows: (i) six (6) foot high cedar fencing of a design, materials and construction specifications stipulated by the Architectural Committee, shall be constructed along the rear lot lines of Lots 2, 3 and 4 or portions thereof as depicted on EXHIBIT "A", attached hereto and made a part hereof, with the good side of such fencing to face away from the Lot such that the cedar fencing is situated between the columns depicted on said Exhibit "A"; (ii) as to the rear lot line of Lot 1 and the most easterly 113.82' of the rear lot line of Lot 2 of

the Annexed Property, the Owners of such Lots shall maintain in a good, safe, clean and visually attractive condition all brick columns and steel fencing situated along such lot lines, and shall not modify or replace same in any way or in any part without Declarants prior approval and the prior approval of the Architectural Committee; (iii) as to the most southwesterly 123.58' of Lot 4 and the entire rear lot lines of Lots 5 and 6, and the portions of the side lot lines of Lots 4, 5 and 6 as depicted on Exhibit "A" attached hereto, metal fencing four (4) feet high of such design, materials and construction specifications as stipulated by the Architectural Committee; and (iv) as to the portions of the side lot lines of all Lots, as such portions are depicted on Exhibit "A" hereof, cedar fencing six (6) feet high of such design and construction specifications as stipulated by the Architectural Committee. In the event any Owner of any Residential Site shall fail to construct or maintain fencing as required hereby, the Community Association is hereby granted, and shall have, the right, upon not less than ten (10) days prior written notice, to enter upon such Residential Site(s) and construct, repair and/or replace as needed such required fencing, and the Owners of the affected Residential Site(s) shall reimburse the Commercial Association for all costs thereof and such Owners and Sites shall further be subject to a Reimbursement Assessment for such costs.

(C) A ten (10) foot wide fence easement is hereby granted to the Association along the rear lot line of all Lots within the Annexed Property and along the lot lines of Lots 1 and 2 adjacent to Restricted Reserve "A" of the Annexed Property and/or adjacent to the South Shore Harbour Boulevard right-of-way. Such easement shall be perpetual and non-exclusive for the purpose of the exercise by the Association of its rights to construct, maintain, repair and/or remove fencing as provided in this Section 5.7.

Section 5.8. Removal of Trash and Debris During Construction. During the construction, repair and/or restoration of Improvements, each Owner or party constructing Improvements for an Owner ("Builder") shall remove and haul from the Residential Sites all tree stumps, trees, limbs, branches, underbrush and all other trash or rubbish cleared from the Residential Site to permit construction of the Improvements, including landscaping. No burning of trash or other debris is permitted on any Residential Site, and no materials or trash hauled from any Residential Site may be placed elsewhere within the Project Area, unless approved in writing by the Architectural Committee. Additionally, each Owner or Builder, during the construction of Improvements, shall continuously keep the Residential Site in a reasonably clean and organized condition. Papers, rubbish, trash, scrap and unuseable building materials are to be kept, picked up and hauled from the Residential Site on a regular basis. Other useable building

Section 5.9. Access Easement for Owners. A non-exclusive easement is hereby granted to each Owner in and to all Residential Sites for the purpose of reasonable and necessary access to such Owner's Residential Site for construction, maintenance and repair of Improvements thereon, provided that the Owner using an adjacent Residential Site for access purposes (the "Easement Site") shall keep such Easement Site free of any trash, rubbish and/or any other materials at all times during or after construction. Prior to any exercise of the access easement granted in this Section 5.9, the Owner or Builder of the Residential Site intending to exercise such easement upon, over or across the Easement Site shall give notice of such intent to the Owner (or Occupant) of the Easement Site. Unless otherwise authorized in writing by the Owner of the Easement Site, such access easement may be utilized only between the hours, local time, of 7:00 a.m. to 8:00 p.m., Monday through Friday, and 9:00 a.m. to 6:00 p.m., Saturday, and may be utilized only if the Owner (or Occupant) intending to use such access easement gives at least twenty-four (24) hours notice (oral or written) to the Owner (or Occupant) of the Easement Site (except in the case of an emergency or in the event that no Improvements have been constructed on the Easement Site, in which case no notice need be given). In all events, the use of the Easement Site shall be exercised in such manner as to avoid any unreasonable or unnecessary interference with the possession, use or enjoyment of the Easement Site by the Owner (or Occupant) of such Easement Site.

Section 5.10. Approval of Improvements. No Improvement of any kind whatsoever shall be permitted to be constructed, placed, repaired, restored or remodeled on any Residential Site or other property within the Annexed Property without prior approval of the Architectural Committee.

ARTICLE VI EASEMENTS AND UTILITIES

Section 6.1. Utility Easements on Plat. The utility easements shown on the Plat are dedicated with the reservation that such utility easements are for the use or benefit of any public or private utility operating within the Project Area in Galveston County, Texas, as well as for the benefit of the Association and the Owners to allow for the construction, repair, maintenance and operation of a system or systems of electric light and power,

telephone lines, cable television lines, gas, water, sanitary sewers, storm sewers and any other utility or service which the Declarant or Association may find necessary or proper.

Section 6.2. Title of Utility Lines. The title conveyed to any Site within the Annexed Property shall not be held or construed to include the title to the water, gas, electricity, cable television, telephone, storm sewer or sanitary sewer lines, poles, pipes, conduits or other appurtenances or facilities constructed by the Declarant or Association, or public or private utility companies upon, under, along, across, or through such utility easements; and the right (but no obligation) to construct, maintain, repair and operate such systems, utilities, appurtenances and facilities is reserved to the Declarant or Association and their successors and assigns. The Owners of any Residential Site shall not be deemed to separately own pipes, wires, conduits, or other service lines running through their property which are utilized for or serve other Sites, but each Owner shall have an easement in and to the aforesaid facilities as shall be necessary for the use, maintenance and enjoyment of his Site.

Section 6.3. No Improvements to be Constructed Over Easements. No Improvements shall be located over, under, upon or across any portion of any utility easement, except as otherwise provided herein. The Owner of each Residential Site shall have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of Improvements, to construct, keep and maintain landscaping, paving and drives across any utility easements across the front of his Site and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site. The Owner of each Residential Site shall also have the right, subject to other provisions of the Community Declaration covering architectural approval of Improvements and to the approval of the holder of the utility easement, to construct, keep and maintain landscaping, air conditioning units and equipment and similar equipment over, across or upon any utility easements along the side of a Residential Site (other than along any side of a Residential Site which is adjacent to a street or right-of-way) and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site.

Section 6.4. No Liability to Owners. Neither the Declarant or Community Association, nor their successors or assigns, shall be liable to any Owner for any damage done by any utility company or any of their agents or employees to shrubbery, trees, flowers or other property of any Owner situated on a portion of a Residential Site covered by a utility easement.

ARTICLE VII
ANNEXATION OF DEVELOPMENT LAND

Section 7.1. Further Development. Reference is hereby made to the fact that Declarant, and certain affiliates of Declarant, currently own other tracts or parcels of land situated within the Project Area or may hereafter acquire other land within the vicinity of the Project Area (which land now owned by Declarant or hereafter acquired by Declarant is collectively herein referred to as the "Development Land"). It is currently contemplated by Declarant and the aforementioned affiliates that a portion of the Development Land will be developed in various stages or phases for residential purposes; however, the foregoing is only a current intention and is subject to change without notice. It is also the present intention of Declarant and such affiliates that if such development occurs, mutual easements (including utility easements), licenses and rights shall be granted for the benefit of the Association and Owners of properties in the Project, and the present and future owners and tenants owning or leasing improvements in any developments now or hereafter constructed on the Development Land. In order to effectuate such intentions, certain easements are herein retained and granted, and provision is made for certain rights to be granted to the Association or the Owners to acquire easements and rights with respect to current and future development on the Development Land.

Section 7.2. Easements and Rights Presently Reserved. Declarant hereby reserves unto itself, its successors and assigns, a nonexclusive easement and right-of-way for ingress, egress and parking over, across and through all streets, rights-of-way and roadways (private or otherwise) shown on the Plat.

Section 7.3. Obligation to Grant Reciprocal Rights. Declarant may, from time to time, assign one or more of the easements set out in this Article VII to such persons or entities as its desires, including but not limited to an owner's association or subassociation, but in no event to any person or entity that does not have an interest in a tract or parcel of land situated within the Development Land, it being intended that the right to use such easements be limited to parties residing on or using the Development Land or the Project, and their guests and invitees. No assignment of any such easement or easements shall be made unless concurrently therewith the parties, or representatives thereof, who are being granted such rights also grant to the Owners in the Sixth Subdivision or the Association a reciprocal easement or easements with respect to any similar facilities, if any, owned by such parties and located on the Development Land, or any part thereof. Subject to all of the provisions of this Article VII, Declarant and its successors and assigns may make multiple non-exclusive assignments of the easements herein granted to it.

Section 7.4. Development Land. This Supplemental Declaration, including without limitation this Article VII, shall have no force or effect and shall not constitute any encumbrance with respect to the Development Land or any part thereof. Reference is made herein in this Article VII to the Development Land solely for purposes of describing certain reciprocal easements and other rights that may hereafter arise as between the Project Area and the Development Land and limiting the parties to whom the easements hereby reserved with regard to the Project may be assigned. No easements or rights are hereby granted or reserved as to the Development Land, and no easement or other right referred to in this Article VII with respect to the Development Land or any part thereof shall be of any force or effect unless set forth in a document executed by the owner or owners of the part of the Development Land to be subject to such right or easement, which document, or a memorandum thereof, is hereafter recorded in the office of the Clerk and Recorder of Galveston County, Texas.

Section 7.5. Allocation of Expenses. If any of the easements and rights granted by this Article VII are assigned to other entities or persons in connection with developments on the Development Land as set out in Section 7.1 above, all such assignments shall provide that the assignees thereunder shall bear their proportionate share of the costs of maintaining, using and operating the street, road, recreational facility or other facility, as the case may be, as to which such right is granted. Such sharing of costs and expenses shall be based upon the actual costs of ownership, operation and maintenance of the facility in question, and shall be borne pro rata by all persons having the right to make use thereof based upon the number of Residential Sites or other residential units owned or leased by such assignee and the number of Residential Sites having said rights. The time of payment of such costs, and the methodology of ascertaining same, shall be specified in the instrument from Declarant or its successors and assigns to its assignee and shall be binding upon the Owners and the Community Association and such assignees provided that the cost allocation shall be based upon the basis as hereinabove provided or some other equitable basis.

Section 7.6. Authority of Board. The Board shall have, and is hereby granted, the necessary and requisite authority to enter into such cross-easement and cross-use agreements, or other agreements howsoever designated, as may be necessary to effectuate the intents and purposes of this Article VII.

ARTICLE VIII GAS SERVICE

Section 8.1. Gas Service. Entex, Inc. has agreed to provide natural gas service to all Residential Sites, provided

certain minimum usage is made of such service. Pursuant to the contract providing such service, all Dwelling Units shall have a minimum of gas water heating, and gas central comfort heating, or pay a non-utilization fee. If, however, any Dwelling Units completed in the Annexed Property do not utilize both gas water heating and gas central comfort heating appliances, then the Owner of such Dwelling Unit at the time of constructing such Improvements shall pay to Entex, Inc. the non-utilization of gas facilities charge set by Entex, Inc. for such Dwelling Unit. This non-utilization charge shall be due commencing thirty (30) days from completion of such Dwelling Unit. In the event this non-utilizing charge is not timely paid by the Owner of the non-utilizing Dwelling Unit, after demand is made for such payment, the Declarant or the Association may, at their option, pay such charge and the payment so made, if any, shall subject such Residential Site to a Reimbursement Assessment.
