Section 4.4. View Restrictions. In the event of a dispute between Owners in the Annexed Property as to the obstruction of a view from a Residential Site, the Community Association Area or the creation of a hazardous condition, such dispute shall be submitted to the Board of the Community Association ("Board"), whose decision in such matters shall be final and binding and not subject to appeal of any kind. Such Board may request any Owner to remove from such Owner's Residential Site, or otherwise alter, any obstruction to the view from the Community Association Area or any hazardous condition. Any such obstruction or hazardous condition shall, upon request of the Board, be removed or otherwise altered to the satisfaction of the Board, by the Owner of the Residential Site upon which said obstruction is located at Owner's sole cost; provided, however, in the event the Owner fails to remove or otherwise alter such obstruction or hazardous condition, in which event the Community Association shall remove such obstruction or hazardous condition, charging the entire cost thereof to the Owner. In the event that any Owner shall fail to install and maintain landscaping in

Such cost shall be a Reimbursement Assessment and shall create a lien against such Residential Site enforceable in the manner set forth in the Community Declaration.

Section 4.6. Vehicle Restriction. No recreation vehicle, camper, camper not on a truck, boat or other watercraft, mobile home, horse trailer, or other trailer, tractor, motor home or truck (other than a pickup truck or van) shall be stored or shall be parked for longer than ten (10) hours anywhere within the Annexed Property (including driveways) or on any public or private road or street in such a manner as to be visible from any other Residential Site or from any portion of any Common Area. The Community Association, acting through the Board, shall have the right to prohibit the keeping of any animal which, in the sole opinion of the Board, is not being maintained in accordance with the foregoing restrictions. Each Owner and/or Related User maintaining any animal shall be liable in accordance with all local ordinances and the laws of the State of Texas to each and all remaining Owners and Related Users of such Owners for any damage to person or property caused by any such animal; and it shall be the absolute duty and responsibility of each such Owner or Related User to clean up after such animals to the extent they have used any portion of the Residential Site of another Owner, or any street or other Common Areas.

Section 4.8. Restriction on Exterior Lighting. Except as may be approved in advance in writing by the Architectural Committee, no exterior lighting shall be permitted anywhere within the Annexed Property, including lighting to accent landscaping features, lights at entrance doors to structures, lights at entrances to property, lights along paths or driveways and lights to illuminate permitted signs. In the event of damage or destruction to any insured Improvements, the proceeds of such insurance shall be applied by the Owner thereof, to the extent necessary, to cause the damaged or destroyed Improvement to be restored or replaced to its original condition or such other condition as may be approved in writing by the Architectural Committee or the Owner shall promptly cause the damaged or destroyed Improvement to be demolished and the Residential Site to be suitable landscaped, subject to the approval of the Architectural Committee, so as to present a

pleasing and attractive appearance, and to be well maintained, mowed, and edged to conform to occupied Residential Sites in the immediate vicinity.

Section 4.10. Solar Energy Installations. The Architectural Committee shall approve the plans and specifications for the installation of residential solar systems, provided that the Architectural Committee determines that such plans and specifications demonstrate the exercise of reasonable measures to minimize the potential adverse aesthetic impact of the installation on other portions of the Twenty-Second Subdivision or on any other Community Association Properties. Any such Architectural Committee approval shall have no effect upon the enforceability of any other use restriction in the Community Declaration or this Supplemental Declaration. The Committee shall promulgate reasonable standards and guidelines against which to examine any such plans and specifications, in accordance with Article X of the Community Declaration. Any such standards or guidelines restricting the installation or use of a solar energy system shall not significantly increase the cost of the system nor significantly decrease its efficiency.

Section 4.11. Drilling or Mining. constructing one (1) Dwelling Unit on such resulting Residential Site, then the side set-back lines for such Residential Site shall be measured from the resulting side property line of such Residential Site rather than from the set-back line indicated on the Plat or described in Section 5.4 above. The required building set-back line for the front property lines of such composite Residential Sites shall remain twenty (20) feet. Upon receipt of written approval of the Architectural Committee to consolidate one (1) or more Residential Sites into one (1) Residential Site, such composite Residential Site shall thereupon be regarded as one (1) Residential Site for all purposes under this Supplemental Declaration and the Community Declaration.

Section 5.6. Visual Obstruction at the Intersections of Streets. No object or thing which obstructs sight lines at elevations between two (2) feet and six (6) feet above the streets in the Annexed Property within the triangular area formed by the intersecting street property lines and the line connecting them at points twenty-five (25) feet from the intersection of the street lines (or extensions thereof) shall be placed, planted or permitted to remain on corner lots.

Section 5.7. Walls and Fences. (A) No fence or wall may be built on any Residential Site except as may be expressly permitted from time to time by written approval of the Architectural Committee at its sole and absolute discretion. Provided, however, the Architectural Committee shall not permit nor approve (i) any fence or wall constructed of chain link or any other material which is not, in the sole opinion of the Architectural Committee, aesthetically compatible with structures, fences or walls located on or adjacent to or visible from the particular Residential Site; nor (ii) any fence or wall to be located nearer to the front property line than the front building set back line; nor (iii) any fence or wall which, in the sole opinion of the Architectural Committee, unreasonably obstructs the adjacent property owner's visibility of any golf course area; nor (iv) any fence or wall which, in the sole opinion of the Architectural Committee, is, by design or construction, aesthetically or architecturally incompatible with any fence, wall or structure located on adjoining lots or visible from the particular Residential Site. No Owner shall construct a fence so as to enclose any portion of any Common Area. Authorization of the construction of any one or more fences or walls pursuant to this section shall not in any way obligate the Architectural Committee to authorize the construction of any other fence or wall. The Architectural Committee is hereby authorized to draft, publish and amend, from time to time, at its sole and absolute discretion, fence and wall requirements for Residential Sites located in the Twenty-Second Subdivision. Such requirements shall in every way be consistent with the dual objectives of permitting high visibility of golf course and other Common Areas from all Residential Sites and permitting only high quality architectural construction and design.

(B) Without limiting the generality of the foregoing, fencing shall be constructed and maintained on Lots within the Annexed Property by the Owners of such Lots as follows: (i) rear lot fencing as to all Lots shall be at the option of the Owner of the

Lot, and if the Owner of any such Lot desires to install and maintain any fencing along the rear lot line of such Lot, such fencing shall be four foot (4') high, hot dipped galvanized decorative steel, painted semi-flat black, with the design, size, materials and placement of such fencing to be subject to the approval of the Architectural Committee; and (ii) side lot fencing shall be required to be constructed and maintained along all common side lot lines of Lots 1 through 14 of the Annexed Property (being the shared side lot lines between such Lots) as follows: six foot (6') high cedar fencing beginning no nearer to the front property line than the front building line and extending along the side lot line to the rear of the dwelling unit, or such point on the side lot line as approved by the Architectural Committee, at which point the cedar fencing shall transition from a six foot (6') height to a four foot (4') height over a distance of eight linear feet (8 L.F.), where the cedar fencing shall terminate and four foot (4') high hot dipped galvanized decorative steel fencing, painted semi-flat black of such design, size and materials as may be approved by the Architectural Committee shall continue along the side lot line to the rear property line where the decorative steel fencing shall terminate. In the event any Owner of any Residential Site shall fail to construct or maintain fencing as required hereby, the Community Association is hereby granted, and shall have, the right, upon not less than thirty (30) days prior written notice, to enter upon such Residential Site(s) and construct, repair and/or replace as needed such required fencing, and the Owners of the affected Residential Site(s) shall reimburse the Community Association for all costs thereof and such Owners and Sites shall further be subject to a Reimbursement Assessment for such costs.

(C) A ten (10) foot wide fence easement is hereby granted to the Association along the rear lot line of all Lots within the Annexed Property. There shall also be a 5' wide easement on Lots pursuant to Easement Agreement recorded under Clerks File No. _____ in the Office of the County Clerk of Galveston County, Texas. Such easements shall be perpetual and non-exclusive for the purpose of the exercise by the Association of its rights to construct, maintain, repair and/or remove fencing as provided in this Section 5.7.

(D) A blanket easement is hereby reserved on all Lots in favor of the Community Association for access to all fence easements for maintenance, repair and replacement of fencing from time to time as determined to be necessary by the Community Association.

Section 5.8. Removal of Trash and Debris During Construction. During the construction, repair and/or restoration of Improvements, each Owner or party constructing Improvements for an Owner ("Builder") shall remove and haul from the Residential Sites all tree stumps, trees, limbs, branches, underbrush and all other trash or rubbish cleared from the Residential Site to permit construction of the Improvements, including landscaping. No burning of trash or other debris is permitted on any Residential Site, and no materials or trash hauled from any Residential Site may be placed elsewhere within the Project Area,

unless approved in writing by the Architectural Committee. Additionally, each Owner or Builder, during the construction of Improvements, shall continuously keep the Residential Site in a reasonably clean and organized condition. Papers, rubbish, trash, scrap and unuseable building materials are to be kept, picked up and hauled from the Residential Site on a regular basis. Other useable building materials are to be kept stacked and organized in a reasonable manner. No trash, materials or dirt shall be placed in any street. Any such trash, materials or dirt inadvertently spilling or getting into the street or street gutter shall be removed, without delay, not less frequently than daily.

Section 5.9. Access Easement for Owners. A non-exclusive easement is hereby granted to each Owner in and to all Residential Sites for the purpose of reasonable and necessary access to such Owner's Residential Site for construction, maintenance and repair of Improvements thereon, provided that the Owner using an adjacent Residential Site for access purposes (the "Easement Site") shall keep such Easement Site free of any trash, rubbish and/or any other materials at all times during or after construction. Prior to any exercise of the access easement granted in this Section 5.9, the Owner or Builder of the Residential Site intending to exercise such easement upon, over or across the Easement Site shall give notice of such intent to the Owner (or Occupant) of the Easement Site. Unless otherwise authorized in writing by the Owner of the Easement Site, such access easement may be utilized only between the hours, local time, of 7:00 a.m. to 8:00 p.m., Monday through Friday, and 9:00 a.m. to 6:00 p.m., Saturday, and may be utilized only if the Owner (or Occupant) intending to use such access easement gives at least twenty-four (24) hours notice (oral or written) to the Owner (or Occupant) of the Easement Site (except in the case of an emergency or in the event that no Improvements have been constructed on the Easement Site, in which case no notice need be given). In all events, the use of the Easement Site shall be exercised in such manner as to avoid any unreasonable or unnecessary interference with the possession, use or enjoyment of the Easement Site by the Owner (or Occupant) of such Easement Site.

Section 5.10. Approval of Improvements. No Improvement of any kind whatsoever shall be permitted to be constructed, placed, repaired, restored, remodeled, or changed in any way on any Residential Site or other property within the Annexed Property without prior written approval of the Architectural Committee.

ARTICLE VI
EASEMENTS AND UTILITIES

Section 6.1. Utility Easements on Plat. The utility easements shown on the Plat are dedicated with the reservation that such utility easements are for the use or benefit of any public or private utility operating within the Project Area in Galveston County, Texas, as well as for the benefit of the Association and the Owners to allow for the construction, repair, maintenance and operation of a system or systems of electric light and power, telephone lines, cable television lines, gas, water, sanitary sewers, storm sewers and any other utility or service which the Declarant or Association may find necessary or proper.

Section 6.2. Title of Utility Lines. The title conveyed to any Site within the Annexed Property shall not be held or construed to include the title to the water, gas, electricity, cable television, telephone, storm sewer or sanitary sewer lines, poles, pipes, conduits or other appurtenances or facilities constructed by the Declarant or Association, or public or private utility companies upon, under, along, across, or through such utility easements; and the right (but no obligation) to construct, maintain, repair and operate such systems, utilities, appurtenances and facilities is reserved to the Declarant or Association and their successors and assigns. The Owners of any Residential Site shall not be deemed to separately own pipes, wires, conduits, or other service lines running through their property which are utilized for or serve other Sites, but each Owner shall have an easement in and to the aforesaid facilities as shall be necessary for the use, maintenance and enjoyment of his or her Site.

Section 6.3. No Improvements to be Constructed Over Easements. No Improvements shall be located over, under, upon or across any portion of any utility easement, except as otherwise provided herein. The Owner of each Residential Site shall have the right, subject to other provisions of the Community Declaration and this Supplemental Declaration covering architectural approval of Improvements, to construct, keep and maintain landscaping, paving and drives across any utility easements across the front of his Site and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his Residential Site. The Owner of each Residential Site shall also have the right, subject to other provisions of the Community Declaration covering architectural approval of Improvements and to the approval of the holder of the utility easement, to construct, keep and maintain landscaping, air conditioning units and equipment and similar equipment over, across or upon any utility easements along the side of a Residential Site (other than along any side of a Residential Site which is adjacent to a street or right-of-way) and shall be entitled to cross such utility easements at all times for the purpose of gaining access to his or her Residential Site.

Section 6.4. No Liability to Owners. Neither the Declarant or Community Association, nor their successors or assigns, shall be liable to any Owner for any damage

done by any utility company or any of their agents or employees to shrubbery, trees, flowers or other property of any Owner situated on a portion of a Residential Site covered by a utility easement.

ARTICLE VII ANNEXATION OF DEVELOPMENT LAND

Section 7.1. Further Development. Reference is hereby made to the fact that Declarant, and certain affiliates of Declarant, currently own other tracts or parcels of land situated within the Project Area or may hereafter acquire other land within the vicinity of the Project Area (which land now owned by Declarant or hereafter acquired by Declarant is collectively herein referred to as the "Development Land"). It is currently contemplated by Declarant and the aforementioned affiliates that a portion of the Development Land will be developed in various stages or phases for residential purposes; however, the foregoing is only a current intention and is subject to change without notice. It is also the present intention of Declarant and such affiliates that if such development occurs, mutual easements (including utility easements), licenses and rights shall be granted for the benefit of the Association and Owners of properties in the Project, and the present and future owners and tenants owning or leasing improvements in any developments now or hereafter constructed on the Development Land. In order to effectuate such intentions, certain easements are herein retained and granted, and provision is made for certain rights to be granted to the Association or the Owners to acquire easements and rights with respect to current and future development on the Development Land.

Section 7.2. Easements and Rights Presently Reserved. Declarant hereby reserves unto itself, its successors and assigns, a nonexclusive easement and right-of-way for ingress, egress and parking over, across and through all streets, rights-of-way and roadways (private or otherwise) shown on the Plat.

Section 7.3. Obligation to Grant Reciprocal Rights. Declarant may, from time to time, assign one or more of the easements set out in this Article VII to such persons or entities as it desires, including but not limited to an owner's association or subassociation, but in no event to any person or entity that does not have an interest in a tract or parcel of land situated within the Development Land, it being intended that the right to use such easements be limited to parties residing on or using the Development Land or the Project, and their guests and invitees. No assignment of any such easement or easements shall be made unless concurrently therewith the parties, or representatives thereof, who are being granted such rights also grant to the Owners in the Twenty-Second Subdivision or the Association a reciprocal easement or easements with respect to any similar facilities, if any, owned by such parties and located on the Development Land, or any part thereof. Subject to all of the provisions of this Article VII, Declarant and its

successors and assigns may make multiple non-exclusive assignments of the easements herein granted to it.

Section 7.4. Development Land. This Supplemental Declaration, including without limitation this Article VII, shall have no force or effect and shall not constitute any encumbrance with respect to the Development Land or any part thereof (other than the Annexed Property). Reference is made herein in this Article VII to the Development Land solely for purposes of describing certain reciprocal easements and other rights that may hereafter arise as between the Project Area and the Development Land and limiting the parties to whom the easements hereby reserved with regard to the Project may be assigned. No easements or rights are hereby granted or reserved as to the Development Land (other than the Annexed Property), and no easement or other right referred to in this Article VII with respect to the Development Land or any part thereof (other than the Annexed Property) shall be of any force or effect unless set forth in a document executed by the owner or owners of the part of the Development Land to be subject to such right or easement, which document, or a memorandum thereof, is hereafter recorded in the office of the County Clerk of Galveston County, Texas.

Section 7.5. Allocation of Expenses. If any of the easements and rights granted by this Article VII are assigned to other entities or persons in connection with developments on the Development Land as set out in Section 7.1 above, all such assignments shall provide that the assignees thereunder shall bear their proportionate share of the costs of maintaining, using and operating the street, road, recreational facility or other facility, as the case may be, as to which such right is granted. Such sharing of costs and expenses shall be based upon the actual costs of ownership, operation and maintenance of the facility in question, and shall be borne pro rata by all persons having the right to make use thereof based upon the number of Residential Sites or other residential units owned or leased by such assignee and the number of Residential Sites having said rights. The time of payment of such costs, and the methodology of ascertaining same, shall be specified in the instrument from Declarant or its successors and assigns to its assignee and shall be binding upon the Owners and the Community Association and such assignees provided that the cost allocation shall be based upon the basis as hereinabove provided or some other equitable basis.

Section 7.6. Authority of Board. The Board shall have, and is hereby granted, the necessary and requisite authority to enter into such cross-easement and cross-use agreements, or other agreements howsoever designated, as may be necessary to effectuate the intents and purposes of this Article VII.

ARTICLE VIII
GAS SERVICE

Section 8.1. Gas Service. Entex, Inc. has agreed to provide natural gas service to all Residential Sites, provided certain minimum usage is made of such service. Pursuant to the contract providing such service, all Dwelling Units shall have a minimum of gas water heating, and gas central comfort heating, or pay a non-utilization fee. If, however, any Dwelling Units completed in the Annexed Property do not utilize both gas water heating and gas central comfort heating appliances, then the Owner of such Dwelling Unit at the time of constructing such Improvements shall pay to Entex, Inc. the non-utilization of gas facilities charge set by Entex, Inc. for such Dwelling Unit. This non-utilization charge shall be due commencing thirty (30) days from completion of such Dwelling Unit. In the event this non-utilizing charge is not timely paid by the Owner of the non-utilizing Dwelling Unit, after demand is made for such payment, the Declarant or the Association may, at their option, pay such charge and the payment so made, if any, shall subject such Residential Site to a Reimbursement Assessment.

ARTICLE IX
